HELLA Razor

Hybrid Wiper Blade

HELLA Razor wiper blade offers car drivers an upgrade to better wiping performance. Designed with an advanced hybrid technology, HELLA Razor integrates the best features of conventional frame and flat blade for an ideal combination of style, performance and protection. Its innovative aerodynamic design offers enhanced contact with the windscreen and optimal pressure distribution across the blade to deliver a cleaner wipe.

Improved aerodynamic design

Reinforced with internal steel frame

Double corrosion protection

- Zinc plated steel frame with powder coating for corrosion protection under the most adverse environmental conditions

Features

Advance Hybrid Technology

- A crossover in wiper blade technology design that combines structural features of the conventional frame and the flat blade low profile design.

Easy-to-use, Universally Compatible Pre-attached Adaptor

- The pre-attached adaptor offers hassle-free and easy installation.
- Fits more than 95% of vehicles in Asia.

Aerodynamic Design

- Improved aerodynamics, resulting in a smoother and quieter operation with maximum visibility and safety.
- Optimal downward air-flow pressure provides better contact and prevents wind lift at high speeds.

Maximum Durability & Reliability

- Thick nanotechnology graphite coated rubber to withstand greater operation stress.
- All-weather protective shell gives added protection for a longer life.

Product Range

Razor Hybrid Wiper Blades

HELLA Razor Hybrid Wiper Blades are technical masterpieces. In the course of their service life, they wipe thousands of litres of water from the windscreen.

This high quality branded product offers a nano-graphite particule coated wiper blade to ensure a smooth hard-working wipe action.

When wiper blade replacement is necessary, consider vision and road safety. HELLA Razor Hybrid Wiper Blades - make a quality choice.
