## Flat wiper blades - Dyna Blades

Dyna Blades from HELLA – the new flat wiper blades.

The optimally contoured vertebrae of the new Dyna Blades provide even distribution of force across every point of the windscreen, guaranteeing perfect wiper performance. The even contact pressure prevents wear points developing.

A multi-adapter is preinstalled in all Dyna Blades. That means the new wiper blades can be retrofitted to older vehicles as well.

For more recent models, additional adapters for wiper arms are included in the package.

The new HELLA wiper blade range is delivered in single-wiper packages, so the customer has the option of changing just one wiper blade if necessary.

**HELLA has now achieved market coverage of 98% with the introduction of the new wiper blade range.**
